Sika® SealTape-S, SikaSwell®, SikaCeram®

BUILDING TRUST

HOTEL IZVOR IN ARANĐELOVAC, SERBIA

PROJECT DESCRIPTION

Arandelovac is a town and municipality in Serbia, which is 75 kilometers south of the capital Belgrade and is famous for its springs of remedial water. The spa and wellness Hotel Izvor offers a wide choice of swimming pools and wellness facilities. The refurbishment project involving Sika solutions was completed in 2013.

PROJECT REQUIREMENTS

When the existing hotel was to be refurbished, the contractor and designer requested a complete waterproofing system for the swimming pools, bathrooms and terraces.

SIKA SOLUTIONS

Sika Serbia provided the team with a proven system solution which included waterproofing of joints, pipes, drains and other related areas. The professional Sika support to all involved parties was key for this project. Swimming pools, terraces and bathrooms were waterproofed with the waterproofing mortars Sikalastic®-1K and SikaTop® Seal-107, in combination with Sika joint and tiling solutions.

SIKA PRODUCTS:
